e-mail______________________________________________________________________________________

Current grade level______________________________  Current Math Class __________________________

Please verify the following criteria in order to take the Precalculus placement test.

1. A’s in Algebra 1 and Geometry. Verification by guidance counselor upon review of transcript.

_____________________________________________________________________________________

2. A average in your current math class. Verification by current teacher. (This will be checked at the end of the year. If anyone falls below an A, he/she will be notified and will not be allowed to take the exam.)

_____________________________________________________________________________________

3. On the back of this form, please write (1) a short explanation of why you want to place out of Precalculus, and (2) an explanation of how you have demonstrated that you have a strong interest in mathematics. This can include regular and successful participation in Math Team activities; successful participation in the American Mathematics Competitions; attendance at enrichment math activities such as summer camps (not summer school). It is very difficult and time-consuming to prepare for this exam. We find that if students don’t have a strong incentive for completion and a strong interest and ability in mathematics do not generally do well on the placement test.

By my signature below, I am indicating that I understand and will abide by the Placement Test policy:

- The placement test is given only once. It is scheduled for Monday, August 25 from 9 a.m. to noon. The test site is room 243.
- I will earn placement into BC Calculus if I achieve an 84% on the exam. I will not earn a Precalculus credit.
